A Word or Two on Prevailing Styles

Fashion change with lightning rapidity nowadays, and no more striking example of this can be found than is exemplified in our Cloak Department today. Sleeves are now plain and slender, the straps and applique work of last season have disappeared in favor of stitchings, scalloped edges etc. Big collars have also gone and the smart plain coat collars with deep notched lapels come as worthy successors. Blacks are most sought after, while buttons as a decorative feature are more in vogue than ever. Children's and misses' garments are modelled after those for older people. Smart Golf Capes and mantles for elderly ladies form an important feature of this week's display.
